

# The Advanced GIScience Research Workshop

## 地理資訊科學研究工作坊

July 14 - 16, 2010

<http://gis.rchss.sinica.edu.tw/gisworkshop2010/>

### 會議宗旨(Mission)

Synergy research themes in Taiwan: identify Taiwan's challenges and advantages in GIScience Research

### 會議目標(Goal)

- ◆ Overview what is now and what is coming: keynote presentations on the state of GIScience in Taiwan and inspirations for the future
- ◆ Analysis and understanding where we are and what we should go from here: panel sessions and build dialogs on the strengths and opportunities of GIScience research in Taiwan
- ◆ Build research capabilities through projects: practice sessions on research project development, including formulate research questions, develop research methods, and write research papers. Space-time analysis and visualization under the context of GIScience research will be used as example to demonstrate the processes.
